Customizable Solution
## EurekaOnDemand.com

- Are you a SME which would like to tap into the vast resource pool* spread globally and available on EurekaOnDemand platform?
- Area you a LME which has significant talent pools* but are looking for ways of augmenting it?
- Are you a SME or LME who would like to define and select your solver groups?

If you have answered YES to these, the Customizable Version of EurekaOnDemand is ideally suited for you.

How Does it Work

1 — Define your organization structure, input your employee information the grade structures, and the internal participants in the solving process

2 — Identify the solver groups you would like to participate in your org. problem solving process. Choose from EurekaOnDemand's thousands of potential solvers and solver groups, spread across industries, specialization and geographies. Invite your own special groups

3 — Incentivize the process separately for internal and external solver groups – establish monetary or other mechanism which will help create Knowledge Management foundations

4 — Customize your Problem Solving Portal (EurekaonDemand.com) and have the application hosted on secured servers

5 — Store, retrieve and manage your problems and solutions - ensuring organizational memory creation

…and some of the benefits

- ✓ Access to some of the finest data bases on global solver groups
- ✓ Infrastructure light – you could use our secured cloud model
- ✓ Information security –transfer of data through secured protocols
- ✓ Problem routing selection – routing the problems and ensuring that target groups that you want only participate in the problem solving process
- ✓ Knowledge repository creation
- ✓ Dashboard to monitor your internal and external solver performance
- ✓ + + + and many more benefits

EurekaOnDemand has aggregated information on thousands of potential solvers
